

Target Field Plaza Mural RFQ

Answers to Artist Questions

- 1. Question:** Artist Budget vs. Project Budget - Is the \$25,000 artist budget including the fabrication, permitting, etc. (as stated in Section 2d)? Or does that fall outside of the artist budget of \$25k and part of the overall Project Budget?

Answer: The artist is responsible for determining fabrication, installation, engineering, and artwork preservation solutions for affixing the work to the metal panels that the Minnesota Ballpark Authority and the Minnesota Twins will provide. The final project cost, incremental of the artist fee, will be determined when the Minnesota Ballpark Authority and the Minnesota Twins approve the artists recommended methodology for fabrication, installation, engineering, artwork preservation, and any other details required to successfully attach the artwork to the metal panels.

- 2. Question:** References - Is the requirement three total references, or three references per team member?

Answer: Each artist should submit three references.

- 3. Question:** What are the dimensions of the display?

Answer: Please see diagram below.
